Six integrated offices strategically in Brazil and in Canada

São Paulo - SP

Rio de Janeiro - RJ

Belo Horizonte - MG

Brasília - DF

Salvador - BA

Toronto - ON

We are the first Latin American law firm to have a presence in Canada. The internationalization of the practice is part of the firm's expansion strategy, which will complete 20 years in 2021.

The work between the offices in Brazil and Canada will initially contemplate business opportunities in the Mining, Infrastructure, Energy, Renewable Energy, Oil & Gas, ESG, Technology & Fintech, and Medical Cannabis sectors.

“Our Toronto office will expand our ability to provide the best legal advice to our Canadian clients with investments or interests in Brazil.”

- Joaquim Oliveira, Managing Partner

Mining

From our offices across Brazil and in Toronto, Canada, our top-tier lawyers have unique industry expertise and focus, having had the opportunity to work with mineral exploration and mining projects around the globe.

We are trusted advisers to Brazilian and international mineral exploration and mining companies from the early days of mineral exploration activity through to project development, financing, production and marketing. Our unrivalled reputation in the mining industry hinges on the close relationships we have developed with junior explorers to major global mining companies, as well as with governments, brokerage firms, banks, royalties and streaming companies and banks that serve them.
